

### Overview

#### HP COMPAQ PRO 6300 SMALL FORM FACTOR BUSINESS PC

- 1 Rear I/O includes (4) USB 3.0 ports, (2) USB 2.0 ports, serial port, PS/2 mouse and keyboard ports, RJ-45 network interface, DisplayPort 1.1a and VGA video interfaces, and 3.5mm audio in/out jacks
- 2 Low-profile expansion slots include (1) PCI, (2) PCI Express x1 and (1) PCI Express x16 graphics
- 3 Front I/O includes (4) USB 2.0 ports, a headphone output and a microphone jack
- 4 HP Mouse
- 5 HP Keyboard
- 6 3.5" external drive bay supporting an optional media card reader or a secondary data drive
- 7 5.25" external drive bay supporting an optical disk drive
- 8 3.5" internal drive bay supporting primary data drive
- 9 240W standard efficiency or 90% high efficiency power supply
- 10 HP Monitor (sold separately)

### Overview

### HP COMPAQ PRO 6300 MICROTOWER BUSINESS PC

- 1 (2) 5.25" external drive bays supporting optical disk drives or removable hard disk drives  
(2) 3.5" internal drive bays supporting data drives
- 2 320W standard efficiency or 90% high efficiency power supply
- 3 3.5" external drive bay supporting the optional HP Media Card Reader
- 4 Rear I/O includes (4) USB 3.0 ports, (2) USB 2.0 ports, serial port, PS/2 mouse and keyboard ports, RJ-45 network interface, DisplayPort 1.1a and VGA video interfaces, and 3.5mm audio in/out jacks
- 5 Front I/O includes (4) USB 2.0 ports, a headphone output and a microphone jack
- 6 Full-height expansion slots include (1) PCI, (2) PCI Express x1 and (1) PCI Express x16 graphics
- 7 HP Mouse
- 8 HP Keyboard
- 9 HP Monitor (sold separately)

### Overview

#### At A Glance

- Choice of two professional chassis form factors: Small Form Factor and Microtower.
- PC chassis and all internal components and modules are 100% free of brominated flame retardants (BFRs) and Polyvinyl Chloride (PVC).
- UEFI BIOS developed and engineered by HP for better security, manageability and software image stability
- Intel Q75 Express chipset supporting Intel 2nd and 3rd generation Core processors featuring Intel HD Graphics
- Intel 82579LM GbE integrated network connection
- DDR3 Synchronous Dynamic Random Access Memory (SDRAM)
- Dual independent monitor support via VGA and digital DisplayPort 1.1a video interfaces
- Standard efficiency or 90% high efficiency energy saving power supplies available
- ENERGY STAR® qualified models certified EPEAT® Gold
- Guaranteed lengthy purchase lifecycles and image stability
- Software image fully compatible across all models and form factors
- Created using industry leading Design for Environment standards
- Selected configurations with global availability easily set up and ordered through HP.com Business to Business portals (<http://h10019.www1.hp.com/business-site/index.html>)
- Tailored HP Factory Express deployment and lifecycle services available (<http://h71028.www7.hp.com/enterprise/cache/97688-0-0-225-121.aspx>)
- Protected by HP Services, including standard warranties up to 5-5-5 (terms and conditions vary by country; certain restrictions and exclusions apply)
- Tool-less serviceability features for easier upgrades and repairs

Standard Features and Configurable Components (availability may vary by country)

### OPERATING SYSTEMS

#### Preinstalled

Genuine Windows® 7 Ultimate (32-bit or 64-bit)  
Genuine Windows® 7 Professional (32-bit or 64-bit)  
Genuine Windows® 7 Home Premium (32-bit or 64-bit)  
Genuine Windows® 7 Home Basic (32-bit)  
FreeDOS

### CHIPSET

Intel® Q75 Express

### PROCESSOR

#### Intel® 3rd Generation Core™ i7 Processors

Intel® Core™ i7-3770 Processor  
Up to 3.9 GHz turbo boost frequency, 8 MB cache, 4 cores, 8 threads  
Intel HD Graphics 4000  
Supports DDR3 memory up to 1600 MT/s data rate  
Supports Intel's Stable Image Platform Program (SIPP)

#### Intel® 3rd Generation Core™ i5 Processors

Intel® Core™ i5-3570 Processor  
Up to with 3.8 GHz turbo boost frequency, 6 MB cache, 4 cores, 4 threads  
Intel HD Graphics 2500  
Supports DDR3 memory up to 1600 MT/s data rate  
Supports Intel's Stable Image Platform Program (SIPP)

Intel® Core™ i5-3470 Processor  
Up to with 3.6 GHz turbo boost frequency, 6 MB cache, 4 cores, 4 threads  
Intel HD Graphics 2500  
Supports DDR3 memory up to 1600 MT/s data rate  
Supports Intel's Stable Image Platform Program (SIPP)

#### Intel® 2nd Generation Core™ i3 Processors

Intel® Core™ i3-2130 Processor  
3.4 GHz base frequency, 3 MB cache, 2 cores, 4 threads  
Intel HD Graphics 2000  
Supports DDR3 memory up to 1333 MT/s data rate

Intel® Core™ i3-2120 Processor  
3.3 GHz base frequency, 3 MB cache, 2 cores, 4 threads  
Intel HD Graphics 2000  
Supports DDR3 memory up to 1333 MT/s data rate

### Standard Features and Configurable Components (availability may vary by country)

#### **Intel® Pentium® Processors**

##### Intel® Pentium® G870 Processor

3.1 GHz base frequency, 3 MB cache, 2 cores, 2 threads

Intel HD Graphics

Supports DDR3 memory up to 1333 MT/s data rate

##### Intel® Pentium® G860 Processor

3.0 GHz base frequency, 3 MB cache, 2 cores, 2 threads

Intel HD Graphics

Supports DDR3 memory up to 1333 MT/s data rate

##### Intel® Pentium® G640 Processor

2.8 GHz base frequency, 3 MB cache, 2 cores, 2 threads

Intel HD Graphics

Supports DDR3 memory up to 1066 MT/s data rate

#### **Intel® Celeron® Processors**

##### Intel® Celeron® G550 Processor

2.6 GHz base frequency, 2 MB cache, 2 cores, 2 threads

Intel HD Graphics

Supports DDR3 memory up to 1066 MT/s data rate

##### Intel® Celeron® G540 Processor

2.5 GHz base frequency, 2 MB cache, 2 cores, 2 threads

Intel HD Graphics

Supports DDR3 memory up to 1066 MT/s data rate

##### Intel® Celeron® G460 Processor

1.70 GHz base frequency, 1.5 MB cache, 1 core, 1 thread

Intel HD Graphics

Supports DDR3 memory up to 1066 MT/s data rate

## GRAPHICS

#### **Integrated on all models (depends on processor)**

Intel HD Graphics: Basic, 2000, 2500, 4000

#### **Optional Discrete Graphics Solutions**

AMD Radeon HD 6350 (512 MB) PCIe x16

(includes a DMS-59 to Dual VGA Y Cable)

AMD Radeon HD7450 (1 GB) PCIe x16

(includes a DVI to VGA adapter cable)

NVIDIA NVS 300 (512 MB) PCIe x16

(Includes a DMS-59 to Dual VGA Y Cable)

NVIDIA NVS 310 (512 MB) PCIe x16

#### **Adapters and Cables**

DisplayPort to DisplayPort Cable

### Standard Features and Configurable Components (availability may vary by country)

DisplayPort to DVI-D Adapter  
DisplayPort to HDMI Adapter  
DisplayPort to VGA Adapter

## STORAGE

### **SATA Hard Drive**

250 GB, 7200 rpm, SATA 6.0 Gb/s, SMART IV, 3.5"  
500 GB, 7200 rpm, SATA 6.0 Gb/s, SMART IV, 3.5"  
1 TB, 7200 rpm, SATA 6.0 Gb/s, SMART IV, 3.5"

### **SATA Self-encrypting Drive**

320 GB, 7200 rpm, SATA, 3.5"

### **SATA Self-encrypting Solid State Drive**

256 GB, SATA, 3.5"

### **SATA Solid State Drive**

120 GB, SATA (with 3.5" adapter)  
128 GB, SATA (with 3.5" adapter)

### **Optical Disc Drive**

DVD-ROM  
SuperMulti DVD Writer  
Blu-ray Writer

### **Media Card Reader**

22-in-1

Standard Features and Configurable Components (availability may vary by country)

### MEMORY

#### Type

DDR3 non-ECC; up to 1600 MT/s

#### Maximum

32 GB

#### # of Slots

4

**NOTE:** For systems configured with more than 3 GB of memory and a 32-bit operating system, all memory may not be available due to system resource requirements. Addressing memory above 4 GB requires a 64-bit operating system.

Memory modules support data transfer rates up to 1600 MT/s; actual data rate is determined by the system's configured processor. See processor specifications for supported memory data rate.

### NETWORKING/COMMUNICATIONS

#### Ethernet (RJ-45)

Intel 82579LM Gigabit Network Connection (standard)

Intel Pro Gigabit CT Desktop PCIe x1 Network Card (optional)

#### Wireless

802.11b/g/n PCIe x1 (optional)

### AUDIO/MULTIMEDIA

High Definition Audio with Realtek ALC221 codec (all ports are stereo)

Microphone\* and headphone front ports (3.5mm)

Line-out and Line-In rear Ports\* (3.5mm)

Multi-streaming capable\*

Internal Speaker (standard)

Thin USB power speakers

USB HD 720P Business Webcam

Business Headset

\* The front microphone port is re-taskable as a Line-in, Microphone-in or Headphone-out port. Rear audio input ports are re-taskable as a Line-in or Microphone-in port. External speakers must be powered externally. Multi-streaming can be enabled in the Realtek control panel to allow independent audio streams to be sent to/from the front and rear jacks. This allows for different audio applications to use separate audio ports on the system. For example, the front jacks could be used with a headset for a communications application while the rear jacks are being used with external speakers and a multimedia application.

Standard Features and Configurable Components (availability may vary by country)

### KEYBOARDS AND POINTING DEVICES

#### Keyboard

PS/2 Keyboard

USB Keyboard

USB Smart Card (CCID) Keyboard

USB and PS/2 Washable Keyboard

Wireless Keyboard and Mouse Combo

#### Mice

PS/2 Optical Mouse

USB Optical Mouse

USB Laser Mouse

USB and PS/2 Washable Mouse

### HP BIOS

Key features of the HP BIOS include:

- Deployment and manageability – HP BIOS provides several technologies that help integrate the HP Compaq 6300 Pro Series PC into the enterprise, such as PXE, remote configuration, remote control, and F10 Setup support for 12 languages.
- Stability – HP BIOS supports the HP stable product roadmap by releasing only critical BIOS changes to the factory and advanced change notification.
- Supports UEFI specification 2.1
- Thermal and power management – The HP BIOS provides and enables thermal and power management technologies so component temperatures are managed for high reliability and to assist in operating the HP Business Desktop computer in any enterprise environment.
- Acoustic performance – Industry leading acoustic emissions across the range of operating conditions.
- Serviceability – HP BIOS provides diagnostic and detailed service information.
- Upgrades and recovery – HP BIOS provides numerous ways to upgrade HP Business Desktop computers, including BIOS updates from within DOS (DOSFlash), BIOS updates from within Windows (HPQFlash), HP Client Manager, and fail-safe recovery. In addition, the HP Business Desktop BIOS Utilities tool enables replicated BIOS setup throughout the Enterprise; it is available from within the BIOS software and from the support website.
- HP BIOS uses PKI signing of the BIOS for trusted BIOS upgrades and recovery.

#### Additional HP BIOS Features

- Power-On password – Helps prevent an unauthorized user from powering on the system.
- Administrator password – Also known as the setup password, this helps prevent unauthorized changes to the system configuration. If the administrator password is not known, the BIOS version cannot be changed and changes cannot be made to BIOS settings using F10 setup or under the OS.
- Advanced Configuration and Power Interface (ACPI) – Represents a significant innovation in power and configuration management, allowing operating systems and applications to manage power based on activity and usage. HP Compaq business PCs use ACPI to provide power conservation features.
- S5 Max Power Savings setting supports EU Lot6 requirement and allows the computer to power down below 1W in S5 (when turned off). When S5 Max Power Savings feature is enabled power to slots is turned off along with WOL functionality

Standard Features and Configurable Components (availability may vary by country)

### SECURITY

- Trusted Platform Module (TPM) 1.2
- SATA port disablement (via BIOS)
- Drive lock
- Serial, parallel, USB enable/disable (via BIOS)
- Optional USB Port Disable at factory (user configurable via BIOS)
- Removable media write/boot control
- Power-On password (via BIOS)
- Setup password (via BIOS)
- HP Solenoid Hood Lock / Sensor
- Support for chassis padlocks and cable lock devices

### POWER

|  | SFF | MT |
|--|-----|----|
| <b>Power Supply</b>                    |     |    |
| 240 W, active PFC, 90% high efficiency | X   |    |
| 240 W active PFC, standard efficiency  | X   |    |
| 320 W, active PFC, 90% high efficiency |     | X  |
| 320 W active PFC, standard efficiency  |     | X  |

### ENVIRONMENTAL

- Energy Star® qualified models available
- EPEAT® registered where applicable/supported. See [www.epeat.net](http://www.epeat.net) for registration status by country.
- BFR/PVC free (chassis, all internal components and modules)

### PORTS

#### I/O Ports – Standard

- 4 – USB 3.0 (rear)
- 4 – USB 2.0 (front)
- 2 – USB 2.0 (rear)
- 1 – Serial RS-232 compatible
- 2 – PS/2 (color-coded support for keyboard (purple) and mouse (green))
- 1 – VGA
- 1 – DisplayPort 1.1
- 1 – Microphone and Headphone (front)
- 1 – Audio-in and Audio-out (rear)
- 1 – RJ-45 (accesses the integrated network interface controller)

### Standard Features and Configurable Components (availability may vary by country)

#### I/O Ports – Optional

- 1 – Serial RS-232 compatible
- 1 – Parallel
- 1 – eSATA

## FORM FACTORS AVAILABLE

- Small Form Factor
- Microtower

## SERVICE AND SUPPORT

3 year standard on-site warranty and service<sup>1</sup>: This limited warranty and service offering delivers parts, labor and on-site repair. Optional terms available up to 5 years. Response time is next business day<sup>2</sup> and includes free telephone support<sup>3</sup> 24 x 7. Global coverage<sup>2</sup> ensures any product purchased in one country and transferred to another non-restricted country will remain fully covered under the original warranty and service offering. Some countries/regions do not offer one year onsite and labor.

### Technical Specifications – Operating Systems, Software and eDocumentation

#### OPERATING SYSTEMS

##### Preinstalled

Genuine Windows® 7 Ultimate (32-bit or 64-bit)  
Genuine Windows® 7 Professional (32-bit or 64-bit)  
Genuine Windows® 7 Home Premium (32-bit or 64-bit)  
Genuine Windows® 7 Home Basic (32-bit)  
FreeDOS

For all Preinstalled operating systems HP provides Microsoft WHQL certified (where applicable) drivers on [www.hp.com](http://www.hp.com) at the time of product announcement.

##### Supported

Genuine Windows® 7 Enterprise (32-bit or 64-bit)

For all Supported operating systems HP performs testing of the OS, and makes available all HP value add software (OS dependent). Certified drivers are made available on [www.hp.com](http://www.hp.com) within 30 days of product announcement.

##### Limited Support

Genuine Windows® XP Professional (32-bit)

For all Limited Support operating systems HP will make available on [www.hp.com](http://www.hp.com) certified drivers for major subsystems, if not provided by the operating system, within 30 days of product announcement.

HP performs functional testing on representative configurations. Some newer technologies may not be supported.

HP value added software and 3rd party applications (i.e. DVD players) are not supported.

##### Certified

**Novell SUSE Linux Enterprise Desktop 11**

Red Hat Enterprise Linux 64

For all Certified operating systems HP will submit hardware to the operating system vendor for testing and certification. All drivers would be obtained from the operating system vendor, not supplied by HP. Certification will be posted by the operating system vendor.

##### Test & Document

Genuine Windows® Vista Enterprise (32-bit or 64-bit)  
Genuine Windows® Vista Professional (32-bit or 64-bit)

For all Test & Document operating systems HP will perform functional testing of the operating system on the HP business PC platform. Any issues found will be documented in an Engineering Advisory and/or Service Advisory and posted to [www.hp.com](http://www.hp.com). HP will not develop or qualify any drivers or perform any integration testing.

The following features are not supported by Novell SUSE Linux Enterprise Desktop:

- Intel Gigabit CT Desktop NIC
- Broadcom NetXtreme Gigabit Ethernet Plus
- HP 22-in-1 Media Card Reader
- HP ProtectTools
- HP Blu-ray Writer playback of commercial movies
- DisplayPort video interface
- HP 2nd serial port adapter
- Power Management features
- Systems configured with Linux do not qualify for ENERGY STAR®

The following features are not supported by Red Hat Enterprise Linux 64:

- TPM v1.2 embedded Security Chip
- Intel Gigabit CT Desktop NIC
- HP Wireless 802.11b/g/n NIC
- HP 22-in-1 Media Card Reader

### Technical Specifications – Operating Systems, Software and eDocumentation

- HP Blu-ray Writer
- HP FireWire / IEEE 1394 PCI Card
- HP 2nd serial port Adapter
- HP USB Smart Card (CCID) Keyboard
- AMD Radeon HD 6350 Graphics
- Power Management features
- Systems configured with Linux do not qualify for ENERGY STAR®

### INCLUDED SOFTWARE COMPONENTS AND APPLICATIONS

- Adobe Flash Player
- Ask Search (alternate search engine)
- HP Marketplace
- HP Wallpaper
- Microsoft Advantage Program, including the following:
  - Bing Bar Toolbar
  - Bing Search
  - Microsoft Internet Explorer Home Page
  - Microsoft Office Starter 2010
- Microsoft Security Essentials
- PDF Complete Corporate Edition
- WinZip Basic
- Yahoo Search (alternate search engine)

#### INCLUDED HP DOCUMENTATION (eDOCS)

- HP eHelp Documentation
- HP Hardware Reference Guide
- HP Quick Setup & Getting Started Guide
- HP Regulatory and Safety Information
- HP Safety and Comfort Guide
- HP Warranty Documentation

#### INCLUDED HP SUPPORT APPLICATIONS

- HP Help and Support
- HP Recovery Manager
- HP Support Assistant

#### OPTIONAL SOFTWARE APPLICATIONS

##### Multi-media Software Applications

- Corel WinDVD 8 BD
- Corel WinDVD 8 SD
- Roxio Creator Business 10 HD
- SRS Premium Sound

##### Collaboration and Online Storage Solutions

- Box.net Online Storage (10GB) - USA only

### Technical Specifications – Operating Systems, Software and eDocumentation

- Box.net Online Storage (unlimited) - USA only
- HP Virtual Rooms (up to 3 people per meeting)

#### Productivity Solutions

- HP Power Assistant
- HP ProtectTools Security Suite v7.0
- Microsoft Office Professional 2010
- Microsoft Office Home & Business Edition 2010
- Microsoft Office Personal 2010 (Japan only)
- Microsoft Windows Virtual PC - XP mode
- PDF Complete Office Edition

### Technical Specifications - Graphics

#### Intel HD Graphics

|                       |   |
|-----------------------|---|
| <b>VGA Controller</b> | Integrated  |
| <b>DisplayPort</b>    | 1.1a; integrated, multimode capable; supports HDCP and audio over DisplayPort   |
| <b>Bus Type</b>       | PCI Express x16   |
| <b>RAMDAC</b>         | Integrated, 350 MHz   |
| <b>Memory</b>         | Intel graphics do not have dedicated memory but utilizes some of the computer's system memory. The amount of memory used for graphics depends on the amount of system memory installed, BIOS settings, operating system, and system load. 32 MB is pre-allocated for graphics use at system boot time. Additional memory can be allocated at boot time by the BIOS for PAVP (Protected Audio Video Playback) support for playback of protected video content. |

Additional memory is allocated for graphics as needed using Intel's Dynamic Video Memory Technology (DVMT), to provide an optimal balance between graphics and system memory use.

| Maximum Graphics Memory | Microsoft Windows XP | Microsoft Windows 7 |
|-------------------------|----------------------|---------------------|
|                         | Up to 1GB            | Up to 1.7GB         |

**Note:** the actual amount of maximum graphics memory can be less than the amounts listed above depending upon your computer's configuration.

|                        |                               |
|------------------------|-------------------------------|
| <b>HW Video Decode</b> | AVC/VC1/MPEG2/JPEG/MJPEG/PAVP |
|------------------------|-------------------------------|

|                            |               |
|----------------------------|---------------|
| <b>Maximum Color Depth</b> | 32 bits/pixel |
|----------------------------|---------------|

|                                   |   |
|-----------------------------------|---|
| <b>Graphics/Video API Support</b> | <u>3<sup>rd</sup> Generation Core processors:</u> |
|-----------------------------------|---|

- The Processor Graphics contains a refresh of the seventh generation graphics core enabling substantial gains in performance and lower power consumption. Up to 16 EU support.
- Next Generation Intel Clear Video Technology HD Support is a collection of video playback and enhancement features that improve the end user's viewing experience
  - Encode/transcode HD content
  - Playback of high definition content including Blu-ray Disc
  - Superior image quality with sharper, more colorful images
  - Playback of Blu-ray disc 3D content using HDMI (V.1.4 with 3D)
- DirectX Video Acceleration (DXVA) support for accelerating video processing
  - Full AVC/VC1/MPEG2 HW Decode
- Advanced Scheduler 2.0, 1.0, XPDM support
- Windows 7, Windows XP, OSX, Linux OS Support
- DirectX 11, DirectX 10.1, DirectX 10, DirectX 9 support
- OpenGL 3.3 support

#### 2<sup>nd</sup> Generation Core processors:

- The Processor Graphics contains a refresh of the sixth generation graphics core enabling substantial gains in performance and lower power consumption.
- Next Generation Intel Clear Video Technology HD support is a collection of video playback and enhancement features that improve the end user's viewing experience.
  - Encode/transcode HD content
  - Playback of high definition content including Blu-ray Disc
  - Superior image quality with sharper, more colorful images
  - Playback of Blu-ray disc 3D content using HDMI (V.1.4 with 3D)

### Technical Specifications - Graphics

- DirectX Video Acceleration (DXVA) support for accelerating video processing
  - Full AVC/VC1/MPEG2 HW Decode
- Advanced Scheduler 2.0, 1.0, XPDM support
- Windows 7, XP, Windows Vista, OSX, Linux OS Support
- DirectX 10.1, DirectX 10, DirectX 9 support
- OpenGL 3.0 support

#### Supported Display Resolutions and Refresh Rates

**NOTE:** other resolutions may be available but are not recommended as they may not have been tested and qualified by HP

| Resolution | Analog | Digital |
|------------|--------|---------|
| 640x480    | 85     | 60      |
| 800x600    | 85     | 60      |
| 1024x768   | 85     | 60      |
| 1280x720   | 85     | 60      |
| 1280x1024  | 85     | 60      |
| 1440x900   | 75     | 60      |
| 1600x1200  | 85     | 60      |
| 1680x1050  | 75     | 60      |
| 1920x1080  | 85     | 60-R    |
| 1920x1200  | 85     | 60-R    |
| 1920x1440  | 85     | N/A     |
| 2048x1536  | 75     | N/A     |
| 2560x1600  | N/A    | 60*     |

\* Only supported when using a DisplayPort connection

Note: Other resolutions may be available but are not recommended as they may not have been tested and qualified by HP

Note: 60-R denotes reduced blanking timings are used on single-link DVI connections and may be used with other digital connections

### AMD Radeon HD 6350 Graphics Card

#### Introduction

The AMD Radeon HD 6350 DH PCIe x16 Graphics Card provides a low profile, PCI Express x16 graphics add-in card solution based on the AMD Radeon™ HD 6350 GPU. This card supports dual display video output through its single DMS-59 connector using a DMS-50 adapter cable.

An ideal solution for desktop PC customers seeking stable 2D and advanced 3D graphics performance, the AMD Radeon HD 6350 DH PCIe x16 Graphics Card is an excellent choice for small business users engaging in Web conferencing or video or photo editing, while improving your everyday business PC experience with better graphics and excellent visual display quality.

**NOTE:** Graphics cards use part of the total system memory (RAM) for graphics performance. System memory dedicated to graphics performance is not available for other use by other programs.

#### Key Benefits

- 512 MB of DDR3 dedicated on-board graphics frame buffer memory removing the need to share PC system memory
- AMD Radeon™ HD 6350 GPU
- Conforms to full PCI Express 2.0A specification for low profile form factor (x16 lanes native PCI Express implementation)
- Includes a DMS-59 to Dual VGA Y Cable
- HDCP supported on DVI outputs (DVI Requires optional kit DL139A)
- DirectX 11 support in hardware for optimal performance in DX11 applications.

### Technical Specifications - Graphics

- AMD Avivo technology for improved image and video playback.
- OpenGL 4.0 support in hardware for optimal performance with OpenGL applications

**NOTE:** The AMD Radeon HD 6350 PCIe x16 Graphics Card does not support Dual-link DVI capable monitors.

|                                |  |

| 1920 x 1440 | 85                        | N/A     |
| 2048 x 1536 | 75                        | N/A     |
| 2560 x 1600 | N/A                       | N/A     |

**Note:** 60-R denotes reduced blanking timings are used on single link DVI connections and may be used with other digital connections.

### Technical Specifications - Graphics

#### AMD Radeon HD 7450 Graphics Card

##### Introduction

The AMD Radeon HD 7450 DP (1GB) PCIe x16 Graphics Card provides a low profile, PCI Express x16 graphics add-in card solution based on the AMD Radeon™ HD 7450 Graphics Processor\*. This card supports dual displays with its DisplayPort and dual link (DL) DVI connectors.

An ideal solution for desktop PC customers seeking stable 2D and advanced 3D graphics performance, the AMD Radeon HD 7450 DP (1GB) PCIe x16 Graphics Card is an excellent choice for small business users engaging in Web conferencing or video or photo editing, while improving the everyday business PC experience with better graphics and excellent visual display quality.

The AMD Radeon HD 7450 DP (1GB) PCIe x16 Graphics Cards delivers PCI Express (PCIe) features including:

- Full 16 lane PCIe bus support with peak bandwidth support
- High resolution monitor support with the dual-link DVI port
- Multimode DisplayPort connector for current and future display technology support

**NOTE:** Graphics cards use part of the total system memory (RAM) for graphics performance. System memory dedicated to graphics performance is not available for other use by other programs.

\* Based on AMD Radeon™ HD 6000 series GPU technology

##### Key Benefits

- 1GB of DDR3 dedicated on-board graphics frame buffer memory removing the need to share PC system memory
- Featuring the AMD Radeon™ HD 7450 Graphics Processing Unit
- Conforms to full PCI Express 2.0A specification for low profile form factor (x16 lanes native PCI Express implementation)
- Provides dual-link (DL) DVI-I and DisplayPort output ports. A DVI-to-VGA adapter cable included
- DisplayPort connector supports multimode technology to support connection to DVI-D, VGA and HDMI monitors with optional adapters in kits [NR078AA](#), [FH973AT](#), [BP937AA](#), [AS615AA](#).

For a DisplayPort to DisplayPort connection use the optional DisplayPort Cable Kit VN567AA

- Supports audio with video through the DisplayPort connector
- DisplayPort 1.2 support provided in a future driver update
- HDCP supported on DisplayPort and DVI output
- DirectX 11 support in hardware for optimal performance in DX11 applications.
- ATI Avivo technology for improved image and video playback.
- OpenGL 4.0 support in hardware for optimal performance with OpenGL applications
- Thermally controlled fan for quiet operation.
- BFR/PVC free construction

\* Only supported with a Display Port monitor connection

\*\* Only supported when using a dual link DVI or DP monitor connection.

**Note:** 60-R denotes reduced blanking timings are used on single link DVI connections and may be used with other digital connections.

### NVIDIA NVS 300 Graphics Card

#### Introduction

The NVIDIA NVS 300 PCIe Graphics Card is a low profile, dual-head graphics card delivering next-generation multi-display capabilities to professional business and commercial applications.

If you require a graphics card for use with desktops in a telesales-center environment, or frequently analyze spreadsheets requiring the flexibility of dual-monitor displays, the NVIDIA NVS 300 PCIe Graphics Card is the ideal solution for you. Easily installed with a setup wizard, this controller integrates seamlessly with the Microsoft Windows environment. nView - NVIDIA's multi-display software, enhances your productivity in single or multi-display environments by allowing you to take advantage of features like gridlines & Virtual Desktops (Virtual Desktops allows an end user to create up to 32 individual desktops)

The NVIDIA NVS 300 PCIe Graphics Card is also GPU computing ready. It is capable of enhancing system performance if used in conjunction with applications that support GPU computing through DirectCompute, CUDA, or OpenCL frameworks.

The NVIDIA NVS 300 PCIe Graphics Card includes 512MB of DDR3 graphics memory. A minimum system memory configuration of 1GB is

### Technical Specifications - Graphics

needed to support this card.

**NOTE:** Graphics cards use part of the total system memory (RAM) for graphics performance. System memory dedicated to graphics performance is not available for other use by other programs.

#### Key Benefits

- View your work on two monitors with nView multi-display software and create up to 32 individual desktops (using 'Virtual Desktops' with nView)
- Compatible with all major financial, non-linear editing (NLE), and electronic design automation (EDA) applications
- Includes 512 MB of dedicated DDR3 graphics memory
- Deliver crystal-clear images via dual 400-MHz RAMDACs
- Supports the latest flat-panel displays, dual analog or digital displays
- Robust IT management tools for seamless installation, deployment and maintenance
- Passive heatsink for silent operation
- DirectX 10.1 support in hardware for optimal performance in DX10 applications
- OpenGL 3.3 support in hardware for optimal performance with OpenGL applications

### NVIDIA NVS 310 Graphics Card

#### Introduction

If you are seeking stable 2D and advanced 3D graphics performance from your HP Compaq Business Desktop, the NVIDIA GeForce 310 DP PCIe x16 Graphics Card is the perfect solution, providing a low profile, PCI Express x16 graphics add-in card.

The NVIDIA GeForce 310 DP PCIe x16 Graphics Card is an excellent choice for your small business, enabling you to engage in video conferencing or 3D image manipulation, while improving your everyday business PC experience with faster frame rates and excellent visual quality.

The NVIDIA GeForce 310 DP PCIe x16 Graphics Card delivers PCI Express (PCIe) features including:

- Full 16 lane support with peak bandwidth support
- High resolution LCD monitor support with the dual-link DVI port
- Multimode DisplayPort connector for current and future technology support

#### Key Benefits

- Stable 2D and advanced 3D graphics performance
- Faster frame rates and excellent visual quality
- Low profile configured with full-height bracket
- 512 MB DDR3 dedicated on-board graphics frame buffer memory
- Conforms to full PCI Express 2.0 specification for low-profile form factor (x16 lanes native PCI Express implementation)
- Provides dual-link (DL) DVI-I and DisplayPort output ports
- Dual-link (DL) DVI support for high resolution LCD monitor support (such as the HP LP3065 LCD monitor)
- DisplayPort connector supports multimode technology to support connection to DVI-D, VGA and HDMI monitors with optional adapters in kits [NR078AA](#), [FH973AT](#), [BP937AA](#), [AS615AA](#).

For a DisplayPort to DisplayPort connection use the optional DisplayPort Cable Kit VN567AA.

- Supports audio with video through the DisplayPort connector
- HDCP for content protected playback support
- DisplayPort connector supports Multimode technology to support connection to DVI-D monitors\*

### Technical Specifications – Hard Disk and Solid State Storage

#### Introduction:

HP Serial Advanced Technology Attachment (SATA) Hard Drives maximize the performance of HP Business PCs by providing the technologies to meet your increasing storage demands with high-capacity drives offering superior reliability and performance.

SATA provides faster data transfer speeds, better system cooling airflow, more bandwidth, more headroom for speed increases in future generations and better data integrity. A next-generation technology, the SATA interface connects hard drives to the PC platform enabling easy aggregation of multiple hard drives into a single PC. This offers you the additional benefits of dedicated bandwidth, the ability to more easily identify device failures and scalability. The HP Compaq 6300 Pro Series supports the latest SATA 6.0Gb/s specification.

#### HP Drive Lock

HP Serial ATA Hard Drives offer enhanced security via a new Drive Lock. When enabled, this ATA security feature set prevents software access to user data on the drive until one or two user-defined passwords are provided.

#### SMART IV Technology

Self Monitoring Analysis and Reporting Technology (SMART) hard drive technology allows hard drives to monitor their own health and to raise flags if imminent failures are predicted. If the drive determines that a failure is imminent, the SMART hard drive technology enables the intelligent manageability or management software to generate a fault alert. While the current versions of SMART hard drives do a good job monitoring the data on the hard drive media, the ever increasing emphasis on reliability and quality has promoted HP to implement SMART IV technology which constantly checks that the data flow from host interface to media and media to host interface is not compromised. This is accomplished by inserting a 2 byte parity code into every 512 byte block in the data path of the hard drive's Cache RAM. This unique parity checking performed by HP's SMART IV technology hard drives, allows for more complete error detection coverage encompassing the entire data path between the host and the hard drive.

Smart IV is also known as IOEDC: I/O Error Detection Code.

#### Native Command Queuing

NCQ or Native Command Queuing is a SATA protocol extension that allows the hard drive to have several write or read commands outstanding at the same time. In contrast, normal non-queued operation requires each command to be completed before the next command is issued by the host system. Queuing allows the drive to complete the commands in the order that allows for best overall throughput. It also involves an advanced method of transferring data to or from the host, called First Party Direct Memory Access (FPDMA), which allows the hard drive and the host controller to manage the data transfers for multiple outstanding commands, without involving the host processor. NCQ can contribute to better performance but the results are dependent on many factors, including the access patterns of the various applications and operating system functions that are initiating drive accesses. Enabling NCQ features in the hard drive requires AHCI support from the host system BIOS, controller, and driver. AHCI support is typically implemented in RAID configurations.

**Note:** GB = 1 billion bytes. Actual available capacity is less.

Technical Specifications – Hard Disk and Solid State Storage

| Storage Drive Support  |     |     |     |     |     |     |
|------------------------|-----|-----|-----|-----|-----|-----|

| <b>Option kit contents</b>                               | HP 128 GB Solid State Drive, documentation, 3.5-inch bay adapter bracket,<br>3.5-inch bay adapter bracket screws, SATA cable |

\* For solid state disk drives, GB means 1 billion bytes. 128GB is the unformatted capacity of this drive before a portion of the drive is reserved for flash management features. Actual capacity will vary by content

\*\* The product achieves a mean time between failure (MTBF) based on population statistics not relevant to individual units.

### Technical Specifications – Memory

#### System Memory Support

The HP Compaq Pro 6300 Business PC supports the 2nd and 3rd generation Intel® Core™ processor families. Based on a new PC micro-architecture, the processor is designed for a two-chip platform consisting of a processor and Platform Controller Hub (PCH). Unlike previous generations, the processor includes an integrated memory controller (IMC). The IMC supports DDR3 protocols with two independent, 64-bit wide channels each accessing one or two DIMMs.

- Two channels of non-ECC DDR3 unbuffered dual in-line memory modules (UDIMM) or DDR3 unbuffered small outline dual in-line memory modules (SO-DIMM) with a maximum of two DIMMs per channel
- Single-channel and dual-channel memory organization modes
- Data burst length of eight for all memory organization modes
- DDR3 memory data transfer rates of up to 1600 MT/s; actual supported DDR3 data transfer rate determined by the configured processor.
- 64-bit wide channels
- DDR3 system memory I/O voltage of 1.5V
- Theoretical Maximum Memory Bandwidth:
  - 10.6 GB/s in single-channel mode of 21.3 GB/s in dual-channel mode assuming DDR3 1333 MT/s
  - 12.8 GB/s in single-channel mode or 25.6 GB/s in dual-channel mode assuming DDR3 1600 MT/s
  - 32 GB maximum memory support depending upon available number of DIMM sockets
- DDR3-1600 (PC3-12800) DIMMs are supported but limited to the 1333 MT/s data transfer rate

**CAUTION:** You must shut down the computer and disconnect the power cord before adding or removing memory modules. Regardless of the power-on state, voltage is always supplied to the memory modules as long as the computer is plugged in to an active AC outlet. Adding or removing memory modules while voltage is present may cause irreparable damage to the memory modules or system board.

#### Memory Configurations:

Slot 1 is black and must always be populated. Not all memory configurations possible are represented below.

**NOTE:** For systems configured with more than 3 GB of memory and a 32-bit operating system, all memory may not be available due to system resource requirements. Addressing memory above 4 GB requires a 64-bit operating system.

| Total Memory                   | Socket    |             |             |             |
|--------------------------------|-----------|-------------|-------------|-------------|
|                                | Channel A |             | Channel B   |             |
|                                | 1 (black) | 2 (white)   | 3 (white)   | 4 (white)   |
| <b>2 GB</b>                    | 2 GB      | unpopulated | Unpopulated | unpopulated |
| <b>4 GB</b><br>(dual channel)  | 2 GB      | unpopulated | 2 GB        | unpopulated |
| <b>8 GB</b><br>(dual channel)  | 2 GB      | 2 GB        | 2 GB        | 2 GB        |

## HP USB Smart Card (CCID) Keyboard

### Introduction:

Boost your security, simplify access procedures and reduce the costs associated with managing networks by preventing unauthorized access to your computers and networks using smartcard technology with the HP Smart Card (CCID) Keyboard.

The USB Smart Card (CCID) Keyboard is a full-sized keyboard that takes advantage of digital signatures and certificates to secure the environment for transactions performed on both public and private networks. The USB Smart Card (CCID) Keyboard works with all smart cards that comply with ISO standard 7816.

Smart cards are easy-to-use credit card-sized devices which require multiple forms of information to be validated before you gain access to your accounts or resources. Used worldwide, smart cards strengthen access to a network or other resource using dual-factor authentication. Implementing a two-factor authentication (or multi-factor authentication) process reduces the risk of unauthorized access by verifying and validating your identity in one of the following ways:

- Something you know – a combination of username and password or PIN
- Something you have – a smart card or security token.

Something you have (smart card) plus something you know (PIN), improves user-access security within corporate network environments. Smart cards are used in government agencies, healthcare companies and the finance industry.

HP ProtectTools Smart Card Manager provides authentication software for the smart card. The Smart Card Reader module works with the HP ProtectTools Security Manager and enables the user to setup, use, and manage the smart card. This allows strengthened security with HP patented technology.

#### Key Benefits:

- Protects against unauthorized access with smart card technology
- Delivers even greater security when combined with a HP ProtectTools smart card and the HP ProtectTools Security Software
- Combination of username and password or pin with a smart card or security token
- Secures online transactions using digital signatures and certificates
- Conforms to industry standards for ease of setup and use
- Delivers long product life and quiet operation with high-impact materials and lubricated keys
- Spill drain feature

### Technical Specifications - Input/Output Devices

Windows Vista Home Basic 32\*, Windows 2000, Windows XP Professional or Windows XP Home 32\* (No driver is required for this device. Native support is provided by the operating system.), xpe, ce.net, Linux, XP-64

\* Certain Windows Vista product features require advanced or additional hardware. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit: <http://www.windowsvista.com/upgradeadvisor>. For Windows Vista system requirements, visit: <http://www.windowsvista.com/systemrequirements>.

### Technical Specifications – Power

#### Unit Environment and Operating Conditions

##### General Unit Operating Guidelines

- Keep the computer away from excessive moisture, direct moisture and the extremes of heat and cold, to ensure that unit is operated within the specified operating range.
- Leave a 10.2 cm (4 in) clearance on all vented sides of the computer to permit the required airflow.
- Never restrict airflow into the computer by blocking any vents or air intakes.
- Do not stack computers on top of each other or place computers so near each other that they are subject to each other's re-circulated or preheated air.
- Occasionally clean the air vents on the front, back, and any other vented side of the computer. Lint, dust and other foreign matter can block the vents and limit the airflow.
- If the computer is to be operated within a separate enclosure, intake and exhaust ventilation must be provided on the enclosure and the same operating guidelines listed above will still apply.

|                                     |   |
|-------------------------------------|---|
| Temperature Range                   | Operating: 50° to 95° F (10° to 35° C)*<br>Non-operating: -22° to 140° F (-30° to 60° C)                  |
| Relative Humidity                   | Operating: 10% to 90% (non-condensing at ambient)<br>Non-operating: 5% to 95% (non-condensing at ambient) |
| Maximum Altitude<br>(unpressurized) | Operating: 10,000 ft (3048 m)<br>Non-operating: 30,000 ft (9144 m)  |

\*Operating temperature is de-rated 1.0 deg C per 300 m (1000 ft) to 3000 m (10,000 ft) above sea level, no direct sustained sunlight. Maximum rate of change is 10 deg C/Hr. The upper limit may be limited by the type and number of options installed.

#### Power Supply

### Technical Specifications – Miscellaneous Features

#### Management Features

- Advanced Configuration and Power Management Interface (ACPI). Allows the system to wake from a low power mode. Controls system power consumption, making it possible to place individual cards and peripherals in a low-power or powered-off state without affecting other elements of the system.
- Intel Wired for Management support; industry wide initiative to make Intel architecture based PCs, servers and mobile computers more inherently manageable out-of-the-box and over the network
- Dual State Power Button; acts as both an on/off button and a suspend-to-sleep button

#### Serviceability Features

- Dual colored power LED on front of computer to indicate either normal or fault condition
- Diagnostic LED Explanation Table:
  - Number of 1-second red LED blinks followed by a 2-second pause, then repeats:
    - 2 - processor thermal protection activated
    - 3 - processor not installed
    - 4 - power supply failure
    - 5 -- memory error
    - 6 - video error
    - 7 - PCA failure (ROM detected failure prior to video)
    - 8 - invalid ROM, bootblock recovery mode
    - 9 - system not fetching code
    - 10 - system hang while loading an option ROM
- System/Emergency ROM
- Flash ROM
- CMOS Battery Holder for easy replacement
- Flash Recovery with Video Configuration Record Software
- 5 Aux Power LED on System PCA
- Processor ZIF Socket for easy Upgrade
- Over-Temp Warning on Screen (Requires IM Agents)
- Clear Password Jumper
- DIMM Connectors for easy Upgrade
- Clear CMOS Button
- NIC LEDs (integrated) (Green & Amber)
- Dual Color Power and HD LED - To Indicate Normal Operations and Fault Conditions
- Color coordinated cables and connectors
- Tool-less Hood Removal
- Front power switch
- System memory can be upgraded without removing the system board or any internal components
- Tool-less Hard Drive, CD & Diskette Removal
- Green Pull Tabs, and Quick Release Latches for easy Identification

### Technical Specifications – Miscellaneous Features

#### Additional Features

|  | Description   |
|--|---|
| <b>Towerable Orientation</b>   | Product can be oriented as either a desktop or a tower  |
| <b>Drive Lock</b>  | Implementation of the industry standard ATA Security feature set. When enabled, it prevents software access to user data on the drive until one or two user-defined passwords are provided.<br>DPS Access through F10 Setup during Boot   |
| <b>Drive Protection System</b>   | A diagnostic hard drive self test. It scans critical physical components and every sector of the hard drive for physical faults and then reports any faults to the user<br>Running independently of the operating system, it can be accessed through a Windows-based diagnostics utility or through the computer's setup procedure. It produces an evaluation on whether the hard drive is the source of the problem and needs to be replaced<br>The system expands on the Self-Monitoring, Analysis, and Reporting Technology (SMART), a continuously running systems diagnostic that alerts the user to certain types of failures |
| <b>SMART Technology (Self-Monitoring, Analysis and Reporting Technology)</b> | Allows hard drives to monitor their own health and to raise flags if imminent failures were predicted   |
| <b>SMART I - Drive Failure Prediction</b>                                    | Predicts failures before they occur. Tracks fault prediction and failure indication parameters such as re-allocated sector count, spin retry count, calibration retry count   |
| <b>SMART II - Off-Line Data Collection</b>                                   | By avoiding actual hard drive failures, SMART hard drives act as "insurance" against unplanned user downtime and potential data loss from hard drive failure  |
| <b>SMART III - Off-Line Read Scanning with Defect Reallocation</b>           | IOEDC: I/O Error Detection Circuitry<br>Detects errors in Read/Write buffers on HDD cache RAM   |
| <b>SMART IV - End-to-End CRC for hard drives</b>                             | Interface in F10 setup provides confirmation of SMART IV support.   |

### Technical Specifications - Environmental Data

#### Environmental Data

#### Eco-Label Certifications & declarations

This product has received or is in the process of being certified to the following approvals and may be labeled with one or more of these marks:

- US ENERGY STAR®
- IT ECO declaration
- EPEAT® Gold where HP registers commercial desktop products. See <http://www.epeat.net> for registration status in your country.
- The configuration used for the Energy Consumption and Declared Noise Emissions data for the Small Form Factor Desktop model is based on a typically configured product.
- The configuration used for the Energy Consumption and Declared Noise Emissions data for the Microtower Desktop model is based on a typically configured product.

#### System Configuration

#### Energy Consumption

#### SFF

|                                     | 115 VAC | 230 VAC | 100 VAC |
|-------------------------------------|---------|---------|---------|
| Normal Operation                    | 41.77 W | 41.64 W | 41.67 W |
| Sleep (Energy Star® low power mode) | 1.92 W  | 2.21 W  | 1.91 W  |
| Off                                 | 0.66 W  | 0.89 W  | 0.64 W  |

#### MT

|                                     |         |         |         |
|-------------------------------------|---------|---------|---------|
| Normal Operation                    | 48.49 W | 49.54 W | 47.99 W |
| Sleep (Energy Star® low power mode) | 1.887 W | 2.117 W | 1.852 W |
| Off                                 | 0.641 W | 0.847 W | 0.621 W |

**Note:** Energy efficiency data listed is for an ENERGY STAR® compliant product if offered within the model family . HP computers marked with the ENERGY STAR® Logo are compliant with the applicable U.S. Environmental Protection Agency (EPA) ENERGY STAR® specifications for computers. If a model family does not offer ENERGY STAR® compliant configurations, then energy efficiency data listed is for a typically configured model.

#### Heat Dissipation\*

#### SFF

|                  | 115 VAC    | 230 VAC    | 100 VAC    |
|------------------|------------|------------|------------|
| Normal Operation | 143 BTU/hr | 142 BTU/hr | 142 BTU/hr |
| Sleep            | 6 BTU/hr   | 7 BTU/hr   | 6 BTU/hr   |
| Off              | 2 BTU/hr   | 3 BTU/hr   | 2 BTU/hr   |

#### MT

|                  |            |            |            |
|------------------|------------|------------|------------|
| Normal Operation | 166 BTU/hr | 169 BTU/hr | 164 BTU/hr |
| Sleep            | 6 BTU/hr   | 7 BTU/hr   | 6 BTU/hr   |
| Off              | 2 BTU/hr   | 3 BTU/hr   | 2 BTU/hr   |

**\*NOTE:** Heat dissipation is calculated based on the measured watts, assuming the service level is attained for one hour.

#### Declared Noise Emissions (in accordance with ISO 7779 and ISO 9296)

### Technical Specifications - Environmental Data

|            | (Typically configured)     | Sound Power<br>(LWAd, bels) | Sound Pressure<br>(LpAm, decibels) |

### Longevity and Upgrading

#### SFF

This product can be upgraded, possibly extending its useful life by several years. Upgradeable features and/or components contained in the product may include:

- Intel LGA775 processor socket
- 8 USB ports
- 2 empty PCI slots (2 low profile or 2 full-height with optional riser)
- 1 empty PCIe x1 slot
- 1 empty PCIe x16 slot
- 1 internal drive slot
- 1 SATA optical drive slot
- 4 memory slots
- 1 Serial Port (optional)
- 1 external diskette drive (optional)

#### MT

This product can be upgraded, possibly extending its useful life by several years. Upgradeable features and/or components contained in the product may include:

- Intel LGA775 processor socket
- 8 USB ports
- 1 empty PCI slot (w/ optional PCI riser card) , or  
1 empty PCIe x16 slot (w/optional PCIe riser card)
- 1 internal drive slot
- 1 Slimline optical drive slot
- 3 memory slots
- 1 Serial/Parallel Port (optional)

Spare parts are available throughout the warranty period and or for up to "5" years after the end of production.

#### Batteries

This battery(s) in this product comply with EU Directive 2006/66/EC

Batteries used in the product do not contain:

- Mercury greater the 5ppm by weight
- Cadmium greater than 10ppm by weigh

#### Batteries

This battery(s) in this product comply with EU Directive 2006/66/EC

Batteries used in the product do not contain:  
Mercury greater the 5ppm by weight

### Technical Specifications - Environmental Data

Cadmium greater than 10ppm by weight

Battery size:

CR2032 (coin cell)

Battery type:

Lithium

#### Longevity and Upgrading

##### SFF

- This product is in compliance with the Restrictions of Hazardous Substances (RoHS) directive - 2002/95/EC.
- This HP product is designed to comply with the Waste Electrical and Electronic Equipment (WEEE) Directive - 2002/96/EC.
- This product is in compliance with California Proposition 65 (State of California; Safe Drinking Water and Toxic Enforcement Act of 1986).
- This product is in compliance with the IEEE 1680 (EPEAT) standard at the Gold where HP registers commercial desktop products. See <http://www.epeat.net> for registration status in your country.
- Plastics parts weighing over 25 grams used in the product are marked per ISO 11469 and ISO1043.
- This product contains 4% post consumer recycled plastic (by wt.)
- This product is 93.82% recyclable when properly disposed of at end of life.

##### MT

- This product is in compliance with the Restrictions of Hazardous Substances (RoHS) directive - 2002/95/EC.
- This HP product is designed to comply with the Waste Electrical and Electronic Equipment (WEEE) Directive - 2002/96/EC.
- This product is in compliance with California Proposition 65 (State of California; Safe Drinking Water and Toxic Enforcement Act of 1986).
- This product is in compliance with the IEEE 1680 (EPEAT) standard at the Gold where HP registers commercial desktop products. See <http://www.epeat.net> for registration status in your country.
- Plastics parts weighing over 25 grams used in the product are marked per ISO 11469 and ISO1043.
- This product contains 5.6% post consumer recycled plastic (by wt.)
- This product is 94.59% recyclable when properly disposed of at end of life.

#### Packaging Materials

##### SFF

- External:
  - PAPER/Corrugated 2000 g
- Internal:
  - PLASTIC/EPE-Expanded Polyethylene 110 g
  - PLASTIC/Polyethylene low density 40 g
- The PAPER/Corrugated packaging material is made from 30.66% recycled content.
- The PLASTIC/Polyethylene low density packaging material is made from 5% recycled content
- The PLASTIC/EPE-Expanded Polyethylene packaging material is made from 5% recycled content

##### MT

- External:
  - PAPER/Corrugated 1950 g
- Internal:
  - PLASTIC/EPS (Expanded Polystyrene) 220 g
- The PAPER/Corrugated packaging material is made from 30.6% recycled content.
- The PLASTIC/EPS (Expanded Polystyrene) material is made from at least 0% recycled content.

### Technical Specifications - Environmental Data

#### RoHS Compliance

Hewlett-Packard is committed to compliance with all applicable environmental laws and regulations, including the European Union Restriction of Hazardous Substances (RoHS) Directive. HP's goal is to exceed compliance obligations by meeting the requirements of the RoHS Directive on a worldwide basis. By July 1, 2006, RoHS substances will be virtually eliminated (virtually = to levels below legal limits) for all HP electronic products subject to the RoHS Directive, except where it is widely recognized that there is no technically feasible alternative (as indicated by an exemption under the EU RoHS Directive).

#### Material Usage

This product does not contain any of the following substances in excess of regulatory limits (refer to the HP General Specification for the Environment at: [http://www.hp.com/hpinfo/globalcitizenship/environment/supplychain/gen\\_specifications.html](http://www.hp.com/hpinfo/globalcitizenship/environment/supplychain/gen_specifications.html)):

- Asbestos
- Certain Azo Colorants
- Certain Brominated Flame Retardants - may not be used as flame retardants in plastics
- Cadmium
- Chlorinated Hydrocarbons
- Chlorinated Paraffins
- Formaldehyde
- Halogenated Diphenyl Methanes
- Lead carbonates and sulfates
- Lead and Lead compounds
- Mercuric Oxide Batteries
- Nickel - finishes must not be used on the external surface designed to be frequently handled or carried by the user.
- Ozone Depleting Substances
- Polybrominated Biphenyls (PBBs)
- Polybrominated Biphenyl Ethers (PBBEs)
- Polybrominated Biphenyl Oxides (PBBOs)
- Polychlorinated Biphenyl (PCB)
- Polychlorinated Terphenyls (PCT)
- Polyvinyl Chloride (PVC) - except for wires and cables, and certain retail packaging has been voluntarily removed from most applications.
- Radioactive Substances
- Tributyl Tin (TBT), Triphenyl Tin (TPT), Tributyl Tin Oxide (TBTO)

#### Packaging

HP follows these guidelines to decrease the environmental impact of product packaging:

- Eliminate the use of heavy metals such as lead, chromium, mercury and cadmium in packaging materials.
- Eliminate the use of ozone-depleting substances (ODS) in packaging materials.
- Design packaging materials for ease of disassembly.
- Maximize the use of post-consumer recycled content materials in packaging materials.
- Use readily recyclable packaging materials such as paper and corrugated materials.

### Technical Specifications - Environmental Data

- Reduce size and weight of packages to improve transportation fuel efficiency.
- Plastic packaging materials are marked according to ISO 11469 and DIN 6120 standards.

#### **End-of-life Management and Recycling**

Hewlett-Packard offers end-of-life HP product return and recycling programs in many geographic areas. To recycle your product, please go to: <http://www.hp.com/go/reuse-recycle> or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: <http://www.hp.com/go/recyclers>. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.

After-Market Options (availability may vary by region)

### Communication Devices

#### Part Number

|  |         |
|--|---------|
| Intel Gigabit CT Desktop NIC (PCIe x1)             | FH969AA |
| Broadcom NetXtreme GbE Ethernet Plus NIC (PCIe x1) | FS215AA |
| HP Wireless 802.11 b/g/n NIC (PCIe x1)             | FH971AA |

### Graphics Solutions

#### Part Number

|   |         |
|---|---------|
| AMD Radeon HD 6350 Graphics (PCIe x16)    | QK638AA |
| AMD Radeon HD 7450 Graphics Card          | B1R44AA |
| Nvidia NVS 300 Graphics (PCIe x16)        | BV456AA |
| Nvidia NVS 310 Graphics (PCIe x16)        | A7U59AA |
| HP DisplayPort Cable Kit                  | VN567AA |
| HP DisplayPort To Dual Link DVI-D Adapter | NR078AA |
| HP DisplayPort To DVI-D Adapter           | FH973AA |
| HP DisplayPort to HDMI Adapter            | BP937AA |
| HP DisplayPort to VGA Adapter             | AS615AA |
| HP DMS-59 to Dual DVI Cable               | DL139A  |
| HP DMS-59 to Dual DisplayPort Adapter     | XP688AA |

### Data Storage Drives and Accessories

#### Part Number

|  |         |
|--|---------|
| HP 300GB 10K rpm SATA 3.0Gb/s 2.5" Hard Disk Drive<br>Includes 3.5"adapter | FM802AA |
| HP 500-GB 7.2K rpm SATA 6.0Gb/s 3.5" Hard Disk Drive                       | QK554AA |
| HP 1-TB 7.2K rpm SATA 6.0Gb/s 3.5" Hard Disk Drive                         | QK555AA |

| HP eSATA Adapter   | FH966AA |
| HP Removable SATA Hard Drive Enclosure (frame & carrier)                   | RY102AA |
| HP Removable SATA Hard Drive Enclosure (carrier only)                      | RY103AA |

After-Market Options (availability may vary by region)

### Input Devices

#### Part Number

|   |         |
|---|---------|
| HP PS/2 Standard Keyboard                       | DT527A  |
| HP USB Standard Keyboard                        | DT528A  |
| HP USB Keyboard with USB ports                  | BT330AA |
| HP USB Gray Keyboard                            | DT529A  |
| HP USB Smart Card (CCID) Keyboard               | BV813AA |
| HP USB Keyboard and Mouse Kit                   | RC465AA |
| HP USB Washable Keyboard                        | VF097AA |
| HP USB and PS/2 Washable Mouse                  | BM866AA |
| HP USB and PS/2 Washable Keyboard and Mouse Kit | BU207AA |
| HP PS/2 Optical Mouse                           | EY703AA |
| HP USB Optical Mouse                            | DC172AT |
| HP USB Laser Mouse                              | GW405AT |
| HP USB Travel Mouse                             | RH304AA |
| HP Wireless Keyboard and Mouse Combination      | NB896AA |

### System Memory

#### Part Number

|              |         |
|--------------|---------|
| HP 2 GB DIMM | AT024AA |
| HP 4 GB DIMM | VH638AA |

### Multimedia Devices

#### Part Number

|                                |         |
|--------------------------------|---------|
| HP Thin USB Powered Speakers   | KK912AA |
| HP DVD-ROM Drive               | AR629AA |
| HP SuperMulti DVD Writer Drive | AR630AA |
| HP Blu-ray Writer Drive        | AR482AA |
| HP USB HD 720P Business Webcam | QP896AA |
| HP Business Headset            | QK550AA |

### Removable Media Storage

#### Part Number

|                                |         |
|--------------------------------|---------|
| HP USB External Diskette Drive | DC141B  |
| HP 22-n-1 Media Card Reader    | AR941AA |

After-Market Options (availability may vary by region)

### Security Devices

#### Part Number

|                                      |         |
|--------------------------------------|---------|
| HP/Kensington MicroSaver Cable Lock  | PC766A  |
| HP Business PC Security Lock         | PV606AA |
| HP SFF Solenoid Lock and Hood Sensor | BP428AA |
| HP MT Solenoid Lock and Hood Sensor  | DE618A  |
| HP SFF Wall Mount/Security Sleeve    | VN570AA |
| HP Keyed Lock Cable                  | BV411AA |

### Stands and Accessories

#### Part Number

|  |         |
|--|---------|
| HP Integrated Work Center Stand (SFF)      | QK549AA |
| HP SFF Tower Stand                         | VN569AA |
| HP Serial Port Adapter (RS-232 compatible) | PA716A  |
| HP Parallel Port Adapter                   | KD061AA |
| HP 5.25" Blank Bezel Kit (50 pack)         | DC177B  |
| HP FireWire IEEE 1394 Card                 | PA997A  |

### LANDesk Software (E-Delivery)

#### Part Number

|   |          |
|---|----------|
| LANDesk Management Suite License - 1-499 Nodes E-Delivery                 | QY369AAE |
